PROFILE

I am a hard-working student and employee currently in my final year of college. My job as a Walmart Associate has made me have a strong work ethic and excellent service. Whether it's helping a customer grab something from the top, showing them where an item is located, or just picking up fallen items off the shelf. I take pride in my role in being the best I can. I have aspirations in the field of Information Technology (IT) and currently been studying it for the past couple of years. Balancing both school and work has equipped me with valuable time management and multitasking skills.

WORK EXPERIENCE
